

EU Cookie Notification

Installation and User Guide for Magento 1 EU Cookie Notification Extension

Table of Contents

1. Installation
 - Disable Compilation Mode
 - Upload Package
 - Clear Caches
2. Configuration Settings for EU Cookie Notification
 - General Settings
3. Front-end Site View
 - EU Cookie Notification Message

Installation

- **Disable Compilation Mode:** To check that this is disabled, go to **System >Tools>Compilation**. If the compiler status is 'Disabled', you are ready to go. If not, simply click the 'Disable' button on the right hand side of the screen.
- **Upload Package:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added.
- **Clear Caches:** This can be done from the admin console by navigating to the cache management page (**System > Cache Management**), selecting all caches, clicking 'refresh' from the drop-down menu, and submitting the change.

Configuration Settings for EU Cookie Notification

Go to **Admin > Stores > Configuration > Scommerce Configuration > EU Cookie Notification**

General Settings

- **Enabled** - Select "Yes" or "No" to enable or disable the module.
- **License Key** - Please add the license for the extension which is provided in the order confirmation email. Please note license keys are site URL specific. If you require license keys for dev/staging sites then please email us at support@scommerce-mage.com.
- **Cookie Notification Message** - Please add the cookie notification message which will be displayed on the frontend.
- **Hide Message (in milliseconds)** - Please add the Hide message in milliseconds.
