Installation

- **Disable Compilation Mode:** To check that this is disabled, go to **System>Tools > Compilation**. If the compiler status is 'Disabled', you are ready to go. If not, simply click the 'Disable' button on the right hand side of the screen.
- **Upload Package:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added.
- **Clear Caches:** This can be done from the admin console by navigating to the cache management page (**System > Cache Management**), selecting all caches, clicking 'refresh' from the drop-down menu, and submitting the change.

Configuration Settings for GDPR Compliance

Go to **Admin > Stores > Configuration > Scommerce Configuration > GDPR**

General Settings

- **Enabled** - Select "Yes" or "No" to enable or disable the module.
- **License Key** - Please add the license for the extension which is provided in the order confirmation email. Please note license keys are site URL specific. If you require license keys for dev/staging sites then please email us at support@scommerce-mage.com
- **Enable Customer Account Deletion/ Anonymisation** - Set to "Yes" if you want to delete record on the frontend from my account.
- **Order anonymisation after (days):-** Number of days to anonymise personal data in order related tables. Leave it blank for not anonymising any personal data automatically.
Please note: Anonymised data can't be restored so please test this on your test site before enabling
- **Chunk of orders to anonymise:-** Enter the number of orders to anonymise in one go. If you have huge amount of transactions in the system then you should limit the number of transactions to be anonymised when cron job runs every hour.
- **Quote expires after (days):-** Enter the number of days to set personal data to NULL in sales_flat_quote table.
- **Enable Debugging:-** Set "yes" to log debugging data related to quote and order anonymisation in the log file under var/log/anonymisation.log

Enable / Disable Tracking

If you are using any of our tracking extension or any other third party extensions and you don't want to send information to Google then you need to check for the cookie name e.g. "statistics_cookie" and this will be set to 1 for "accept" and 0 for "decline", based on cookie value it will enable or disable the tracking.

Here is the function which will force your tracking not to run unless the cookie has been accepted by the customer from cookie notification message.

e.g. You can add name of your GDPR cookie, here for our GDPR extension the name of cookie key is "statistics_cookie", which we have been using in below code.

```
/**
 *
 * @return bool
 */
protected function hasCookie()
{
```

```
}  
/**  
$cookieKey = 'statistics_cookie';  
$cookie = (string)Mage::getModel('core/cookie')->get($cookieKey); return ($cookie=="1" ? true : false);
```

Here is the function which will turn off your tracking only when customer declines from cookie notification message

```
*  
@return bool  
*/  
protected function hasCookie()  
{  
$cookieKey = 'statistics_cookie';  
$cookie = (string)Mage::getModel('core/cookie')->get($cookieKey); return ($cookie=="0" ? false : true);  
}
```

Integrate Cookies with GTM Pro Tracking

You can integrate cookies with GTM Pro by following the below steps in GTM: -

Step 2 - Create a new trigger named "Acceptance Cookie", trigger type could be anything like GTM.DOM, Pageview, Custom Event etc and based on the trigger type choose some custom events or some pageview and add the following condition

- From second dropdown - select equals
- Third Input box - put value 1

Step 3 - Associate the trigger created in Step 2 ie.. "Acceptance Cookie" with any existing tag and that tag will only fire when customers accept the cookie on your website

Front-end site view

Cookie Popup - Cookie Accept

Cookies are used to improve the experience for user. Once you accept, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site. Cookies allow web applications to respond to you as as individual.

Cookie Policy

We use cookies on this website to improve your shopping experience. We use cookies to remember log-in details and provide secure log-in, collect statistics to optimize site functionality, and deliver content tailored to your interests. Click accept to give your consent to accept cookies and go directly to the site or click on more information to see detailed descriptions of the types of cookies we store

[Accept](#)

Cookie Preferences

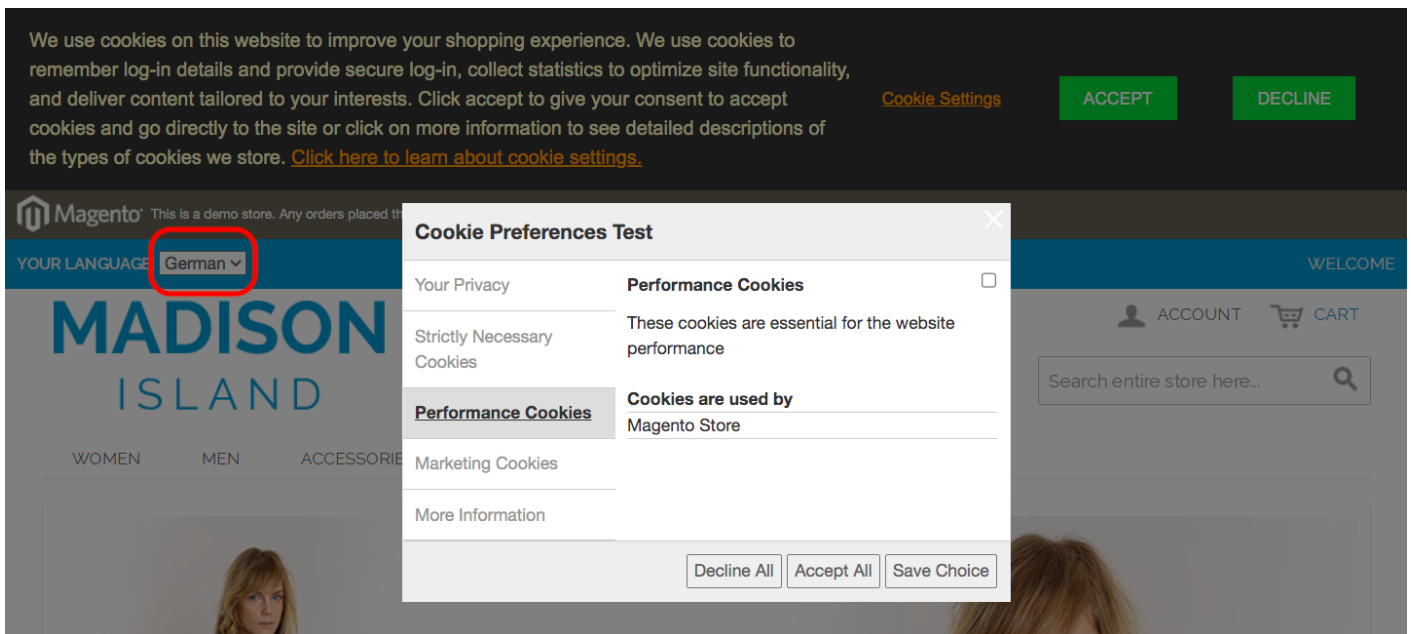

You can configure cookie choices from **Admin > Customers > Manage Cookie Choices > Manage Choice list**, configured cookie choice will be shown on the front-end under "Cookies Settings" link, a customer will open a Cookie Preferences pop up, from where a user can Accept or Decline cookies. Below is the description under each cookies category that clarifies how the cookies it contains are used.

- **Strictly Necessary Cookies** - These cookie are essential for the website to function and they cannot be turned off. They are usually only set in response to actions made by you on your site, such as logging in, adding items to your cart or filling in form. If you browse our website, you accept these cookies.
- **Performance Cookies** - These cookies are essential for the website performance.
- **Statistics Cookies** - These cookie gets used by Google Analytics to collect statistics to optimize site functionality, and deliver content tailored to your interests.
- **Marketing Cookies** - Marketing cookies are used to track visitors across websites. The intention is to displays ads that are relevant and engaging for the individual customers and thereby more valuable for publishers and third party advertisers.

The screenshot shows a Magento store interface. At the top, there is a dark banner with white text explaining the use of cookies and providing 'ACCEPT' and 'DECLINE' buttons. Below the banner, the store header includes the Magento logo, a language selector set to 'English', and the store name 'MADISON ISLAND'. A 'Cookie Preferences Test' pop-up window is overlaid on the page. The pop-up has a title bar with a close button. It contains a 'Your Privacy' section with a 'Strictly Necessary Cookies' sub-section, which is marked as 'ALWAYS ACTIVE'. The text explains that these cookies are essential for website functionality. Below this, there are sections for 'Marketing Cookies' and 'More Information'. At the bottom of the pop-up, it lists 'Cookies are used by' with the example '_ga'. Three buttons are at the bottom: 'Decline All', 'Accept All', and 'Save Choice'.

Cookie Preferences for Store view

Change cookie preferences based on store view, create cookies accordingly and allows users to accept or deny cookies for a particular store view.

Check the Value of the Accepted Cookies on the Front-end

You can check the value of the accepted cookies by using developer tool (F12). Here is the path to check, **Press F12 > Network > Storage > Cookies** > Click on **site URL** > Check the cookies status/value under "**Value**" column.

Visibility of "Accept all" Button on the Cookie Popup

The "Accept All" button will shown on the cookie popup, if all cookie choices are Not required and "Set by Default" for cookie choices set to "No" from **Admin > Customers > Manage Cookie Choices > Manage Choice List > Select Cookie Choice > Edit > Set by Default - "Yes/No"**. If set to "Yes" then "Accept All" won't appear.

Newsletter Subscription

Once Enable Newsletter is configured from **Admin > Stores > Configuration > Scommerce Configuration > GDPR > Privacy Settings > Enable Newsletter - "Yes"**, then you can see the privacy agreement checkbox on the newsletter "Privacy Policy" link redirects to privacy policy page.

Privacy Policy Checkbox on Registration and Checkout Page

The privacy policy checkbox will be shown on the registration and checkout page.

Delete Account from my Account Section

You can delete the account from **Front-end > My Account > Delete Account** section

If you have a question related to this extension please check out our **FAQ Section** first. If you can't find the answer you are looking for then please contact **support@scommerce-mage.com**.
