Installation

- **Disable Compilation Mode:** To check that this is disabled, go to **System >Tools>Compilation**. If the compiler status is 'Disabled', you are ready to go. If not, simply click the 'Disable' button on the right hand side of the screen.
- **Upload Package:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added.
- **Clear Caches:** This can be done from the admin console by navigating to the cache management page (**System > Cache Management**), selecting all caches, clicking 'refresh' from the drop-down menu, and submitting the change.

Configuration Settings for Auto Apply Coupon Code

Go to **Admin > Stores > Configuration > Scommerce Configuration > Auto Apply Coupon Code**
