## Installation and User Guide for Magento 2 Product Handling or Additional Fee Extension

### Table of Contents

1. Installation
  - *Installation via app/code*
  - *Installation via Composer*
2. Configuration Settings for Handling Fee
  - *General Settings*
  - *Handling Fee on Order Detail View Page*
  - *Add Handling Fee at Product Level*
  - *Add Handling Fee at Product Level(Tiered Pricing)*
3. Front-end Site View
  - *Handling Fee on Cart Page*
  - *Handling Fee On Checkout Page*
  - *Handling Fee for a Product with Tiered Pricing(Configurable Product)*
  - *Handling Fee for a Product with Tiered Pricing at (Simple Product)*

## Installation

- **Installation via app/code:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added. After the successful upload of the package, run below commands on Magento 2 root directory.

```
php bin/magento setup:upgrade  
php bin/magento setup:di:compile
```

php bin/magento setup:static-content:deploy

- **Installation via Composer:** Please follow the guide provided in the below link to complete the installation via composer.

<https://docs.scommerce-mage.com/magento-2-extensions/installation-via-composer/installation-via-composer>

## Configuration Settings for Handling Fee

Go to **Admin > Stores > Configuration > Scommerce Configuration > Handling Fee**

### General Settings

- **Enabled** - Select "Yes" or "No" to enable or disable the module.
- **License Key** - Please add the license for the extension which is provided in the order confirmation email. Please note license keys are site URL specific. If you require license keys for dev/staging sites then please email us at [support@sccommerce-mage.com](mailto:support@sccommerce-mage.com).
- **Handling Fee Label** - Please add the label displayed in totals.

**General**

Enabled [store view]	Yes	Select "Yes" to enable module
License Key [store view]	haMrbNMmc27PKM	Enter the License Key the module
Handling Fee Label [store view]	Handling Fee Label displayed in totals	Please add the Handling Fee Label

- **Handling Fee on Order Detail View Page** - You can see the handling fee under "Order Totals" section from **Admin > Sales > Orders > Select Order > View**

# Magento 2 Surcharge or Additional Fee

## Installation and User Guide for Magento 2 Surcharge or Additional Fee Extension

### Table of Contents

1. Installation
  - *Installation via app/code*
  - *Installation via Composer*
2. Configuration Settings for Surcharge
  - *General Settings*
  - *Surcharge for Multiple countries/Multiple payment methods*
  - *View Surcharge on the Order Details View Page*
  - *Surcharge for Admin Orders*
3. Front-end Site View
  - *Surcharge Percentage/Fixed Amount Per Payment Method and Country*
  - *View Surcharge on the Checkout Page*
  - *Surcharge with the Free Shipping*

## Installation

- **Installation via app/code:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added. After the successful upload of the package, run below commands on Magento 2 root directory.

```
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
```

- **Installation via Composer:** Please follow the guide provided in the below link to complete the installation via composer.

<https://docs.scommerce-mage.com/magento-2-extensions/installation-via-composer/installation-via-composer>

## Configuration Settings for Surcharge

Go to **Admin > Stores > Configuration > Scommerce Configuration > Surcharge**

### General Settings

- **Enabled** - Select "Yes" or "No" to enable or disable the module.
- **License Key** - Please add the license for the extension which is provided in the order confirmation email. Please note license keys are site URL specific. If you require license keys for dev/staging sites then please email us at [support@sccommerce-mage.com](mailto:support@sccommerce-mage.com).
- **Surcharge Label** - This label text gets used in the frontend of the website which will be shown on basket, review, invoice, order, shipment, email confirmation and refund.
- **Surcharge Amount Type** - This option allows you to choose fixed amount or percentage value. Percentage value gets calculated based on the grand total or subtotal attribute been selected.
- **Surcharge Percentage or Fixed Amount** - This is the surcharge or additional fee which will be shown to the customer based on surcharge amount type (fixed to percentage)

**General Settings**

Enabled <small>(store view)</small>	Yes	Select "Yes" to enable the module
License Key <small>(store view)</small>	\$2y\$10\$VCF7oAvrM8M94EPakP7ymO8sHSyJL8.faD7TBq4IXbUEO4FcRrfKe	Enter the license key for module
Surcharge Label <small>(store view)</small>	ScommerceMage-Surcharge <small>Label displayed in totals</small>	Please provide the Surcharge Label displayed in totals
Surcharge Amount Type <small>(store view)</small>	Percentage <small>Fixed or Percentage type</small>	Please select the Surcharge Amount Type
Surcharge Percentage or Fixed Amount <small>(store view)</small>	10 <small>Fixed or Percentage amount, additional fee will be applied based on grand or subtotal attribute been selected</small>	Please add the Surcharge Percentage or Fixed Amount

- **Surcharge Percentage or Fixed Amount per payment method or payment method and country** - Fixed or Percentage amount, additional fee will be applied based on grand or subtotal attribute been selected per payment method or payment method and country. Example checkmo:3;cashondelivery:2 or checkmo:3:FR;checkmo:5:GB
- **Grand or Subtotal Attribute** - This option allows you to choose whether you want to apply percentage additional fee on grand or subtotal. This will also apply on Minimum

Order Total.

- **Minimum Order Total** - This value will be checked / validated based on the Grand or Subtotal Attribute value been selected.
- **Skip with Free Shipping** - This option can be used if you don't want to charge additional fee when the shipping price is zero. This is useful when you are charging additional fee based on the shipping country but when the shipping is free then you might not want to charge additional fee.
- **Tax Class** - Please select the tax class from the drop-down list.
- **Shipping Countries** - The additional fee will be applied only to the specific shipping country(s). Please select all if you want to charge additional fee for all shipping countries.
- **Payment Method** - The additional fee will be applied only to the specific payment method (s). Please select all if you want to charge additional fee for all payment methods.

The image shows a form with several fields and annotations:

- Surcharge Percentage or Fixed Amount per payment method or payment method and country:** Input field with value "checkmo:3". Annotation: "Please add the Percentage or Fixed amount per payment method, subtotal and country".
- Grand or SubTotal Attribute (store view):** Dropdown menu with value "Sub Total Including Tax". Annotation: "Please select the Grand or Sub".
- Minimum Order Total (store view):** Empty input field. Annotation: "Please add the Minimum order , it will be checked based on G or Subtotal been selected".
- Skip with Free Shipping? (store view):** Dropdown menu with value "No". Annotation: "Select 'Yes' to skip the free shipping".
- Tax Class (store view):** Dropdown menu with value "None". Annotation: "Please select the Tax Class".
- Shipping Countries (store view):** List of countries including Afghanistan, Africa, Albania, Algeria, American Samoa, Americas, Andorra, Angola, Anguilla, and Antarctica. Annotation: "Please select the Shipping Cou , surcharge will be applied only the selected countries".
- Payment Method (store view):** List of payment methods including --Please Select--, No Payment Information Required, PayPal Express Checkout, PayPal Billing Agreement, Check / Money order (highlighted), Purchase Order, and Cash On Delivery. Annotation: "Please select the Payment Met surcharge will be applied on the selected payment method".

Additional text at the bottom of the form: "A surcharge is applied only for the above shipping countries." and "Surcharge will only apply for selected payment method".

Please select the Payment Method, surcharge will be applied only for the selected payment method

- **Surcharge for Multiple countries/Multiple payment methods** - You can set surcharge for multiple countries by selecting countries from **Admin > Stores > Configuration > Scommerce Configuration > Surcharge > General Settings > Shipping Countries**, and multiple payment methods from **Admin > Stores > Configuration > Scommerce Configuration > Surcharge > General Settings > Payment Method**.
- **View Surcharge on the Order Details View Page** - You can see the applied surcharge on the order details view page from **Admin > Sales > Orders > Select Order > Edit**, under "Order Totals" section.
- **Surcharge for Admin Orders** - In the below image you can see the added surcharge value for the order placed from the admin panel, **Admin > Sales > Orders > Create New Order > Select User > Select Product > Add Product**.

# Magento 2 Delivery Instructions and Delivery Date

## Installation and User Guide for Magento 2 Delivery Instructions and Delivery Date Extension

### Table of Contents

1. Installation
  - *Installation via app/code*
  - *Installation via Composer*
2. Configuration Settings for Delivery Instruction
  - *General Settings*
  - *Configuration Settings*
  - *Back-end - Delivery Instruction Details*
3. Front-end Site View
  - *Delivery Instruction Section on the Checkout page*
  - *Delivery Time Selection*
  - *Delivery Date Selection*
  - *Delivery Instructions Details in Order Confirmation Emails*

## Installation

- **Installation via app/code:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added. After the successful upload of the package, run below commands on Magento 2 root directory.

```
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
```

- **Installation via Composer:** Please follow the guide provided in the below link to complete the installation via composer.

<https://docs.scommerce-mage.com/magento-2-extensions/installation-via-composer/installation-via-composer>

## Configuration Settings for Delivery Instruction

Go to **Admin > Stores > Configuration > Scommerce > Delivery Instruction**

### General Settings

- **Module Enable** - Select "Yes" or "No" to enable or disable the module.
- **License Key** - Please add the license for the extension which is provided in the order confirmation email. Please note license keys are site URL specific. If you require license keys for dev/staging sites then please email us at [support@sccommerce-mage.com](mailto:support@sccommerce-mage.com).

#### General Settings

The screenshot shows the 'General Settings' section for the 'Delivery Instruction' module. It features two main configuration fields:

- Enabled:** A dropdown menu currently set to 'Yes'. A callout box points to this dropdown with the text: "Select 'Yes' to enable the module".
- License Key:** A text input field containing a long alphanumeric string: "\$2y\$10\$YTsTss8/38ISgF3jX5cw9.hqMFpD8pXSZoWsgRe5zAcU00Owfgz5W". A callout box points to this field with the text: "Enter the license key".

## Configuration Settings

- **Delivery Instruction Label** - Enter delivery instruction label, this label will be shown on the frontend checkout page under delivery instruction section.
- **Delivery Date Label** - Enter delivery date label, this label will be shown on the frontend checkout page.
- **Delivery Time Label** - Enter delivery time label, this label will be shown on the frontend checkout page under delivery instruction.

- **Choose Time Label** - Enter time label, this label will be shown on the frontend checkout page under delivery instruction.
- **Max Length** - Enter max length of delivery instruction.
- **Enable Delivery Date** - Select "Yes" to enable the delivery date on checkout.
- **Delivery Date cut off time** - Select delivery date cut off time, after this time the order will be treated for next day.
- **Order Processing time** - Number of days which is required for order processing. If this is set to 2 then the date calendar on checkout will show delivery dates of 2 days from order placement.
- **Exclude Dates** - Dates which will be disabled on the date grid on checkout.
- **Timeslots** - Times will be available in date calendar on checkout.
- **Disable days** - Select weekdays which will be disabled on the checkout calendar.

## Installation

- **Installation via app/code:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added. After the successful upload of the package, run below commands on Magento 2 root directory.

```
php bin/magento setup:upgrade  
php bin/magento setup:di:compile  
php bin/magento setup:static-content:deploy
```

- **Installation via Composer:** Please follow the guide provided in the below link to complete the installation via composer.

# Configuration Settings for Shipping Carrier Tracking

Go to **Admin > Stores > Configuration > Scommerce Configuration > Tracking Link**

## General Settings

- **Enabled** - Select "Yes" or "No" to enable or disable the module.
- **License Key** - Please add the license for the extension which is provided in the order confirmation email. Please note license keys are site URL specific. If you require license keys for dev/staging sites then please email us at [support@sccommerce-mage.com](mailto:support@sccommerce-mage.com).

### General

Enabled <small>[store view]</small>	<input type="text" value="Yes"/>	<input type="checkbox"/> Use system value
<small>This setting will be used to enable or disable module</small>		
License Key <small>[store view]</small>	<input type="text" value="\$2y\$10\$kSS04gB6Jw0d3DReyRX64.ExZ7KGy0l0lpQ5xazOUhg9dWHbES9e"/>	
<small>This setting will be used to verify your license key for the give domain</small>		
<small>N.B. License keys are domain specific so for your testing or staging sites please email us at <a href="mailto:core@sccommerce-mage.com">core@sccommerce-mage.com</a></small>		

## Shipping Methods

- **URLs** - Enter the shipping method and the URL. The URL should contain the {number} parameter which will be used to pass the tracking number to the shipping carriers tracking site where the shipment can be tracked.
- **Additional Carriers**- Add the additional carriers which will be available in the carrier selector dropdown list while creating a shipment.

## Shipping Methods
