

Magento SEO Unique Catalog URLs

Installation and User Guide for Magento 1 SEO Unique Catalog URLs

Table of Contents

1. Installation
2. Configuration Settings for Catalog URL
 - General Settings
 - Configuration Path to Set Up Primary Category
3. Front-end site view
 - Product Page Unique URL
 - Search Page / Category Page Unique Catalog Product URL

Installation

- **Disable Compilation Mode:** To check that this is disabled, go to **System >Tools> Compilation**. If the compiler status is 'Disabled', you are ready to go. If not, simply click the 'Disable' button on the right-hand side of the screen.
- **Upload Package:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added.
- **Clear Caches:** This can be done from the admin console by navigating to the cache management page (**System > Cache Management**), selecting all caches, clicking 'refresh' from the drop-down menu, and submitting the change.

Configuration Settings for Catalog URL

Go to **Admin > Stores > Configuration > Scommerce Configuration > Catalog URL**

General Settings

- **Enabled** - Select “Yes” or “No” to enable or disable the module.
- **Remove Category Path** - Select “Yes” if you want to remove category path from product URLs. By default it is “No”.
- **License Key** - Please add the license for the extension which is provided in the order confirmation email. Please note license keys are site URL specific. If you require license keys for dev/staging sites then please email us at support@scommerce-mage.com.
- **Exclude Root Categories** - Exclude some root categories to appear as primary category dropdown against products.

The screenshot shows the configuration interface for the module. It includes the following fields and callouts:

- Enabled:** A dropdown menu set to "Yes". Callout: "Select 'Yes' to enable the module".
- Remove Category Path:** A dropdown menu set to "No". Callout: "Select 'Yes' to Remove Category Path".
- License Key:** A text input field containing "ca/dxWqAZdkFs". Callout: "Enter the License key for the module".
- Exclude Root Categories:** A large empty text area. Callout: "Please select the Exclude Root Categories".

Below the text area, there is a note: "Exclude some root categories to appear in parent category dropdown against products".

Configuration Path to Set Up Primary Category

To set primary category go to **Admin > Catalog > Select Product > Primary Category**. The drop down will show all the categories selected for the product from where you can select the primary category of the product.

The screenshot shows the configuration page for the product "Madison LX2200 (Electronics)". The "Primary Category" field is highlighted with a red box and contains the path "Root Catalog -> Default Category -> Home & De".

Below the field, there is a note: "Choose the primary category for this product, this will be the category which will be used in product URL for the whole store".

On the left side, there is a sidebar with "Product Information" and various tabs like General, Prices, Meta Information, Images, etc. The "Primary Category" tab is currently selected.

Front-end site view

- **Product Page Unique URL** -You can assign primary category to a product from **Admin > Catalog > Select Product > Primary Category**. In the below image you can see the primary category “**Home & Decor > Electronics**” has been set for the product Madison LX2200.
