4. Front-end Site view
 - *Previous Purchase Grid*
 - *Hide Columns in the Previous Purchase Grid*
 - *Add One or Multiple Products to Cart Directly From the Grid*

Installation

- **Installation via app/code:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added. After the successful upload of the package, run below commands on Magento 2 root directory.

```
php bin/magento setup:upgrade  
php bin/magento setup:di:compile  
php bin/magento setup:static-content:deploy
```

- **Installation via Composer:** Please follow the guide provided in the below link to complete the installation via composer.

Configuration Settings for Reorder Previous Products

Go to Admin > Stores > Configuration > Scommerce Configuration > Global Site Tag (gtag.js)

General Settings

- **Enabled** - Select "Yes" or "No" to enable or disable the module.
- **License Key** - Please add the license for the extension which is provided in the order confirmation email. Please note license keys are site URL specific. If you require license keys for dev/staging sites then please email us at support@sccommerce-mage.com.
- **Hidden Columns** - You can hide one or multiple columns from the previous purchases grid. The columns that can be hidden are listed below:-

• Thumbnail

- **Qty**(Quantity)

• Last Order Date

• Last Order Number

• Last Order Price(Ex. tax)

• Last Order Price(Incl. tax)

• Current Product Price

• Number of Orders
