Installation

- **Installation via app/code:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added. After the successful upload of the package, run below commands on Magento 2 root directory.

```
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
```

- **Installation via Composer:** Please follow the guide provided in the below link to complete the installation via composer.

Configuration Settings for Substitute Products

Go to **Admin > Stores > Configuration > Scommerce Configuration > Substitute Products**

- I use it a lot**
It's a good size and I use it a lot. My only issue with it was I wanted the handles to be longer so I can wear it on my back.
