

# Product Image Resize

## Magento Product Image Resize Extension Installation/Set-up Guide

- **Disable Compilation Mode:** To check that this is disabled, go to System->Tools->Compilation. If the compiler status is 'Disabled', you are ready to go. If not, simply click the 'Disable' button on the right hand side of the screen.
- **Upload Package:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added.
- **Clear Caches:** This can be done from the admin console by navigating to the cache management page (System->Cache Management), selecting all caches, clicking 'refresh' from the drop-down menu, and submitting the change. Log out and login back in Admin.
- **Admin Configuration:** Go to **Admin -> Catalog-> Manage Images**, here you will find all the relevant pages for which you can change product image sizes. You can also have different image sizes per category by adding action name as **catalog\_category\_<<cat\_id>>**
- **Theme changes:** If you are not using your custom theme then this module should work out of the box. But if you are using custom theme then follow the following steps -:
  - Check if you have the following files in your custom theme folder

```
/app/design/frontend/default//template/catalog/product/list.phtml  
/app/design/frontend/default//template/catalog/product/list/related.phtml  
/app/design/frontend/default//template/catalog/product/list/upsell.phtml  
/app/design/frontend/default//template/checkout/cart/sidebar/default.phtml  
/app/design/frontend/default//template/checkout/cart/crosssell.phtml  
/app/design/frontend/default//template/wishlist/sidebar.phtml
```

If the above files do exist in your custom theme then copy the differences from the following files otherwise copy them as it is to your custom theme folder -:

```
/app/design/frontend/default//template/catalog/product/list.phtml  
/app/design/frontend/default/default/template/catalog/product/list/related.phtml  
/app/design/frontend/default/default/template/catalog/product/list/upsell.phtml  
/app/design/frontend/default/default/template/checkout/cart/sidebar/default.phtml
```

/app/design/frontend/default/default/template/checkout/cart/crosssell.phtml

/app/design/frontend/default/default/template/wishlist/sidebar.phtml

- **Clear Caches:** Once you are done with everything above, clear the cache to get the changes reflect on your website.

If you have a question related to this extension please check out our **FAQ Section** first. If you can't find the answer you are looking for then please contact **support@scommerce-mage.com**.
